

MEMBERSHIP APPLICATION  
ARIZONA ORIGIN SCIENCE ASSOCIATION, INC.

AzOSA is dedicated to bringing to light new scientific evidence in the discussion of Creation Science and the Authority of God’s Word. AzOSA sponsors public lectures, discussions and field trips on the subjects of evolution, creation and Bible science.

Statement of Beliefs

1. The universe and everything in it was created by God rather than by spontaneous generation and development from one kind to another.
2. All creation was accomplished in six consecutive literal days, not over millions of years, and the earth is relatively young (thousands not billions of years).
3. There is a **divine design** and purpose in nature as opposed to an unorganized random and chance development.
4. A world-wide, historical Flood, caused by God, occurred at the time of Noah. It was not just a local flood.
5. The Bible is the inspired, revealed Word of God to man and is accurate in all areas.
6. Jesus Christ is God and is the only substitute and Savior through whom man is redeemed from sin.

Statement of Objectives

1. To promote Creation Science in churches, in schools, and in our culture in general.
2. To relate the Bible of the Christian faith to the various sciences and disciplines.
3. To raise up and equip people to present Creation Science and the authority of God’s Word.
4. To promote research to study Creation Science and Biblical Creation.
