

FIVE IMPOSSIBLE QUESTIONS FOR AN EVOLUTIONIST

1. WHERE DID MATTER COME FROM?

Secular scientists say Big Bang is dead. <http://www.cosmologystatement.org>

either 1. The universe created itself

2. The universe has always existed

3. The universe was created presenter

Genesis 1:1 John 1:1-3, Isaiah 46:9

2. WHERE DID FIRST LIFE COME FROM?

Miller-Urey experiment to make amino acids Assumed ancient atmosphere ammonia, methane, hydrogen and water

assumed no oxygen problem with ozone

condenser and trap: destruction of amino acids produced

toxic by-products

amino acid ratios

handedness

intelligent input

in regard to DNA and life starting in oceans: water dissolves DNA

3. WHERE DID THE CAMBRIAN EXPLOSION COME FROM?

Sudden appearance of multicellular invertebrate fossils in rock layers

no transitional forms

even worse now: Avalon explosion even earlier

Is the creation orchard with extinction due to the Genesis Flood.

4. WHERE DID DINOSAURS COME FROM?

Evolutionists have no transitional fossils to show where dinosaurs came from or how various kinds supposedly evolved from one into another.

Again is the creation orchard (different dinosaur kinds) with extinction due to the Genesis Flood.

Job 40:15-24

5. WHERE DID INFORMATION COME FROM?

Need precise definition:

1. Be exact (precise borders) and very clear
2. Include all attributes which distinguish it from all other entities
3. Exclude everything, that lacks even just one of these attributes

CODE

MEANING

EXPECTED ACTION

INTENDED PURPOSE

1st Law of Information - Information cannot originate by random chance

2nd Law of Information - Information can only originate from an Intelligent Sender

DNA is the most elegant and compact information system known to man.

Need DNA + RNA + Enzymes + Structural Proteins + Replication, Transcription and Translation

Irreducible Complexity

Cannot compromise Scripture to accommodate evolution:

1. Logic is discarded – order of events in Scripture vs. evolution
2. God's character is impugned Millions of years of death disease and suffering prior to arrival of man. GOOD?
3. Authority of Scripture - Death before sin vs. death after sin. John 6:23
