

Mark H. Armitage, B.S., M.S., Ed.S. (B.S. Education, Liberty University, M.S. Biology/parasitology, ICR Graduate School - Ed.S. Science Education, Liberty University).

BIO:

Lifetime member and former Financial Secretary, Creation Research Society, Former Electron Microscopy lab manager, California State University Northridge (CSUN) and member, Board of Directors of the Southern California Society for Microscopy and Microanalysis since 2000. Mark was the President of the Society for 4 years.

Mark grew up and lived in Venezuela and Puerto Rico for 15 years. He became a Christian when he was a college senior at the University of Florida.

He has had a lengthy career in microscopy with firms such as Olympus Corporation of America, Carl Zeiss and Reichert, Austria across the United States and the Caribbean. In 1984 he founded a microscope company and has been in business for 32 years.

Mark studied parasitology and electron microscopy under Richard Lumsden (Ph.D. Rice and Dean of Tulane University's graduate program) at the Institute for Creation Research. He was awarded a US patent for an optical inspection device in 1993.

Mark's teaching career includes positions at The Master's College, Azusa Pacific University and California State University.
